

BETHLEHEM COUNTRY CLUB

Bethlehem Country Club was designed in the days when hickory shafted clubs were the norm. At a little under 6000 yards BCC is a relatively short layout when compared to some of today's 7200-yard monsters. However, the small "Rossian" greens with their challenging topography provided plenty of challenges for the novice and expert alike.

BCC has hosted tournaments for the NHPGA, NHGHA and NHWGA.

We are proud of our ability to offer a championship venue for the top levels of competition in our region, yet remain the type of playable golf course that the novice and purely recreational golfer can feel comfortable on. Outstanding playing conditions on a traditional, timeless design make for a memorable golf experience at Bethlehem Country Club.
