## Terrain...As it should be. Every morning the first lipeak of Loon Mountain

Every morning the first lifts begin their 2100 ft. climb to the peak of Loon Mountain. Forty-four trails and five tree skiing runs stretch out below, each artistically designed and expertly maintained. From obsessive top-to-bottom snowmaking to fanatical grooming, we take pride in providing our pristine tree-skiing, mogul fields, steeps and cruisers the attention they deserve.

Loon Mountain is New England's most accessible mountain resort. We're in Lincoln, NH - right off Interstate 93 at Exit 32 603 745-8111
